Choose this option to download the book to your device so that you can read it offline.

To read eBooks on your device you must have downloaded Adobe Digital Editions and have registered with Adobe. You can download an eBook to multiple devices, but each device must have suitable software and the same Adobe registered id. You may need to get your browser to allow pop-ups from the ebook platform. In college Adobe should be on all student computers, staff will need to contact IT to get it installed on their computer.

- Choose the number of days from the drop down list and click download.
- Once downloaded on your device you may need to open 'Adobe Digital Editions'. Go to your downloads folder and find the downloaded PDF and drag it into 'Adobe Digital Editions'. It will then install the eBook into the bookshelves and allow you to access and read the eBook from there.

You will not be able to copy or print from a downloaded copy. Copy, print, and notes are only available in the read online option within copyright restrictions.

Please note that some Browns eBooks can only be used by one person at one time. If the book is in use, add yourself to the queue and you will receive an email confirming when you can read the eBook.
